

INU QUEEN Whitepaper

Introduction

Decentralized Finance (“DeFi”) is a new, rapidly growing market that lacks fundamental security infrastructure.

Inu Queen is a blockchain technology offering a suite of security focused decentralized applications (dApps) for every aspect of multi-chain DeFi for users. When we think about the future of DeFi, we envision a space where everyone can easily participate, while having peace of mind about their holdings. We envision an industry where developers have access to the widest possible markets while being able to provide credible technological assurances that their projects are secure.

We are working to bring Inu Queen and our ecosystem of dApps to as many blockchains as possible to increase adoption of safety protocols and make DeFi more accessible to all.

InQu Security

Liquidity Pool Burnt

The most important security in DeFi is a Liquidity Pool. Our Liquidity Pool has been burn, so all our investor can feel safe while holding

Ownership Renounced

Our smart contract already renounced, we can't change anything from the smart contract.

InQu Overview

Inu Queen (InQu) Stats:

- Total Circulating Supply: 87,619,002,262,047 (~ 87.6 Billion)
- Burned: 912,380,997,737,953 (~ 91.2 Billion)
- Blockchains Available: BNB Chain
- Inu Queen Smart Contract :
0xe425952852a32a7c7d81af8b3e0ba44462cfdffd

InQu Ecosystem Overview

A silhouette of a castle with multiple towers and flags, set against a dark background. The castle is positioned on a hill, and the overall scene is rendered in a dark, monochromatic style.

- NFTs
- InQu Swap
- InQu Bridge

NFTs

We have 365 NFTs that all people can mint it and sell it on third party marketplace. We officially do partnership with tofunft.com.

People can mint our nft here :
<https://mint.inuqueen.com>

Once they minted, they can sell it on tofunft. Then the Nft will shown here :
<https://tofunft.com/collection/inu-queen-nft/items>

InQu Swap

InQu Swap is a Binance Smart Chain swap that allow user to swap or add liquidity on Binance Smart Chain.

InQu swap very simple and practice.

InQu Bridge

InQu Bridge is a multi-chain router that allow user to swap coin or token over chain

Inu Queen

The background features a stylized illustration of a castle with multiple towers and spires, set against a dark blue night sky with small white stars. A light blue path leads from the bottom left towards the castle. The castle has several arched openings at its base. The overall aesthetic is dark and atmospheric.
